

# SOLAR & ENERGY

*Smart, simple  
and clean energy  
saving solutions*

*Our Vision: To enlighten communities and businesses throughout the South West regions of Western Australia with smart, simple and clean energy saving solutions. One customer at a time.*

In a single hour, the sun transmits more energy to the earth's surface than the entire world consumes in a year. Given that Western Australia is fortunate enough to receive the most sunshine all year round it makes perfect sense when it comes to solar energy.

## *About JCW Solar & Energy*

*At JCW Solar & Energy we truly understand what it means to live in the beautiful state of WA and the importance the sun plays in preserving our way of life.*

Whether helping homeowners realise the cost savings and benefits of solar power, partnering with local businesses to become more energy efficient or making a difference in our communities, we're passionately dedicated to preserving the environment and culture in which we all work, play and love. **JCW Solar & Energy** is wholly committed to delivering clean energy solutions that are customised to serve every West Australian with personal service and creative installation options.

**JCW** solar & energy

# SOLAR & ENERGY

*As one of the leading EPC providers of small to mid-scale solar photovoltaic (PV) systems throughout Western Australia, **JCW Solar & Energy** provides a full array of solar photovoltaic (PV) options along with the latest inverter technology and large scale lithium battery storage solutions.*

*Our expert team provide:*

- Engineering & Design
- Procurement
- Construction
- Commissioning
- Operations and Maintenance
- Project Feasibility Analysis
- Energy Performance Analysis, and
- Long Term Performance Guarantees

## *Residential*

Electricity prices are ever-increasing, and more homeowners are turning to solar energy to reduce their rising electricity costs, it makes perfect to make the switch to solar. Whether your goal is to save money on your electric bill or simply reduce your carbon footprint, **JCW** has a residential solar power solution that meets your energy-saving needs. We design and install solar panel and battery storage systems for homes all over the South West region of Western Australia

## *Commercial*

For industrial, commercial, retail and public entities, electricity costs are among the top operational expenses and unfortunately, these cut directly into bottom line profits. **JCW's** broad experience and unique capabilities allow us to take on challenging solar PV projects in a variety of different locations and environments ranging from residential to commercial offices, retail parks, hospitals, schools, universities, government facilities and rural agribusinesses. Project sizes range from small domestic dwellings through to large scale commercial and free standing agricultural solutions. We utilise the latest CAD technology to individually craft solutions in any mix of rooftop, ground mount, single and dual-axis tracker, and/or canopy-based installations.
